### 1.1. DISCLOSURE OF INTEREST AFFECTING IMPARTIALITY

Division 6 Subdivision 1 of the Local Government Act 1995 requires Council Members and Employees to declare any direct or indirect financial interest or general interest in any matter listed in this Agenda.

Disclosures of Interest Affecting Impartiality are required to be declared and recorded in the minutes of a meeting. Councillors who declare such an interest are still permitted to remain in the meeting and to participate in the discussion and voting on the particular matter. This does not lessen the obligation of declaring financial interests etc. covered under the Local Government Act.

To help with complying with the requirements of declaring Interests Affecting Impartiality the following statement is recommended to be announced by the person declaring such an interest and to be produced in the minutes.

#### BRIEF SUMMARY

Shire to consider a financial contribution to the Great Southern Treasures.

#### BACKGROUND

In previous years the Shire has contributed financially alongside of other participating shires to the Hidden Treasures, now known as the "Great Southern Treasures". Last year the shire contributed \$1000 as its annual contribution including the rebranding. This year GST have been successful in securing a grant through the Regional Economic Development (RED) Grant program for funding of \$37,382 (2019/2020). \$50,000 was applied for and a special condition of the grant was that the shortfall be picked up by the participating LGA's. \$25,618 to be shared by 9 shires with Woodanilling requested contribution being \$4000.

This funding is to employ a Tourism Implementer for 29.5hrs per week. This position will support community, local business, local government and other stakeholders to maximize their tourism potential and implement projects for the Great Southern Treasures. Most of the 9 shires have agreed to finance this initiative.

#### STATUTORY/LEGAL IMPLICATIONS

#### POLICY IMPLICATIONS

**15.2.CESM REPORT JULY 2018 – JUNE 2019****Business Plan****Business Plan Priorities**

- Operational Response in All Shires when appropriate.
- Management of UCL/UMR
- Management of LG Bushland
- Training of Bushfire Brigades

**1. PREVENTION****Develop practices for fire management on local government bushland in all shires.**

The season saw private property inspections completed by the Rangers with my support with past history and the process. Number of properties across the Shire of Katanning and Broomehill – Tambellup saw infringement notices issued and contactors engaged to complete the works under Section 33 Bushfire Act. Inspections took longer than anticipated, with changes to this coming season hopefully speeding up the process.

Shire managed land is included in the works program annually.

I managed and completed Mitigation works on UCL / UMR land for the Shires of Katanning and Broomehill - Tambellup with funding being submitted and approved for the works. This incorporated inputting each parcel of land (over 150 parcels) into an Excel spreadsheet and inputting veg types and the distance from dwellings to follow a formula to obtain the risk.

- Strategic breaks west and north side of the Broomehill Primary School and improved existing tracks in the area.
- Strategic break and parkland clear on the east side of Keith St Broomehill.
- Parkland clear vegetation on the east side of Laveter St Broomehill to protect private property assets.
- Slash vegetation on the UCL block on Tieline Rd Broomehill.
- Strategic breaks and parkland clearing approx 2km breaks) implemented from Rourke St Tambellup to protect property and locate a gate to reduce access.
- Slashing and Break improvements on the south side of Tambellup town site south of rail line. ( ARC have work to do in this area)
- Strategic break from Burando Hill through to the Shire Depot and continue through to Dijon St Katanning. (Gates installed)
- Slashing of 26 UCL house blocks with on Katanning town site by contractor.
- Coordinating with Shire of BHT to complete slashing of 124 UCL blocks in town sites of BHT.
- Identified works required to reduce risk to the Tambellup Primary school and worked with Shire and Education Dept to reduce the risk.
- Woodanilling strategic breaks and works being implemented as per BRMP by BRMO with support by CESM.

Budget Funding secured for the above UCL works for Katanning and BHT was approx 80K  
Local contractors were contacted to submit an application to be identified as a preferred contractor for DFES so they could complete local works on UCL/UMR land. Local contractors did not make submissions due to the requirements they needed to have to be on the "Preferred Contractor List".

I have asked for 101K for funding for 19/20 for UCL works across Katanning and BHT.

Approval given by DER for a Permit to Clear Vegetation to implement a strategic break on James St Katanning. Currently viewing best options to complete this work.  
Still waiting for suitable weather conditions to complete 2 Burn Prescriptions – Wright Rd Katanning and the southern boundary of the Katanning speedway to implement a buffer for the town site. Again the weather has been against us.

Date prepared: All known transactions up to 21 June 2019

### BASIS OF PREPARATION

#### REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996, Regulation 34*. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

#### BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities and to the extent they are not inconsistent with the *Local Government Act 1995* and accompanying regulations), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations. Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### THE LOCAL GOVERNMENT REPORTING ENTITY

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 10.

### SIGNIFICANT ACCOUNTING POLICES

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

**KEY INFORMATION**

This statement is to be read in conjunction with the accompanying Financial Statements and Notes.

**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY  
FOR THE PERIOD ENDED 31 MAY 2019**

**NOTE 1(a)  
NET CURRENT ASSETS**

**SIGNIFICANT ACCOUNTING POLICIES**

**CURRENT AND NON-CURRENT CLASSIFICATION**

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the Council's operational cycle. In the case of liabilities where Council does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land held for resale where it is held as non current based on Council's intentions to release for sale.

**EMPLOYEE BENEFITS**

**Short-term employee benefits**

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

**Other long-term employee benefits**

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

**Other long-term employee benefits (Continued)**

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**PROVISIONS**

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

**INVENTORIES**

Inventories are measured at the lower of cost and net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

**SIGNIFICANT ACCOUNTING POLICIES**

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.
